## ***VISION 2025 – Key Strategies and Priorities***

- Because the tourism-related sector is so dominant, things we do that help or hurt this sector will have a far greater effect on our economy than what happens in other sectors.
- Additionally, becoming less beach-dependent and investing in infrastructure that encourages the long-term growth of other business sectors will help diversify and stabilize the overall economy.

### **SUSTAINABILITY**

- Infrastructures that promote a natural balance, preserve biodiversity and protect our valued natural resources are solutions that benefit the land and community now and for future generations.
- Health and wellness of a community correlate to the health of a community's economy.
- Standards of excellence in service to meet and exceed the needs of the community and its safety must be upheld.

### **PROSPERITY**

- Strategies should take into account impacts across all business sectors and strive to strengthen the relationship between small town and big beach.
- To protect the quality of life for all residents and the high-value experience for our visitors, hospitality, retirement and businesses independent of these sectors must be able to prosper.
- Thoughtful investment in our community will attract more investment.

### **LEADING EDGE HEALTHCARE**

- Enhanced healthcare services contribute to the well-being and safety of the community and contribute to the economy.

### **PROGRESSIVE EDUCATION**

- Quality education is a critical necessity for any prosperous community to attract educated professionals as well as feed our economy from within with targeted and nationally-recognized programs and facilities.

- Infrastructure and transportation improvements will focus on creating bike-and pedestrian-friendly corridors as well as public green spaces.
