Gulf Shores remains under Tropical Storm Warning due to advancing Hurricane Michael

Gulf Shores, Ala – October 9, 2018 – City of Gulf Shores officials continue to monitor Hurricane Michael as it continues on an eastern track and is forecast to make landfall as a Category 3 major hurricane between Destin and Apalachicola on the Florida Panhandle. Gulf Shores' residents and visitors are urged to continue to monitor this situation closely and take necessary precautions.

Tropical Storm Force Winds ranging from 39 to 74 mph can be expected as local weather conditions deteriorate rapidly Tuesday evening through Wednesday.

The City of Gulf Shores has posted double red flags at the beach indicating the waters are closed. Life-threatening rip currents and high surf conditions have created a dangerous environment for swimming and water activities.

Coastal flooding can be expected through Wednesday. Motorists are cautioned against driving through any submerged roadways. High water in Little Lagoon is creating flooded roadway conditions at West 4th Ave., West 5th Ave, West 6th Ave and Windmill Ridge Road.

Residents who live in flood-prone, low-lying areas and those residing in mobile homes, campgrounds and RV parks should take all necessary precautions in advance of the storm.

Baldwin County has opened the Coliseum on Fairground Road in Robertsdale as an emergency shelter for anyone seeking accommodation. All questions related to finding emergency shelter should be directed to the Emergency Management Agency Department at <http://baldwincountyal.gov/departments/ema>.

The 47th Annual National Shrimp Festival will open at 10 a.m. on Friday, Oct. 12. Questions related to the festival should be addressed to the Coastal Alabama Business Chamber office at 251-968-6904 or by going to www.myshrimpfest.com.

City of Gulf Shores officials encourage all residents to take the following precautions:

- In anticipation of Hurricane Michael's landfall, secure all outdoor patio furniture and other items which may become projectiles with high velocity winds.
- Republic Services will pick up garbage/recycle as per normal schedule. Please be sure to secure trash containers once emptied.
- Pick up all yard debris and remove it from ditches and culverts, so water will drain freely.
- Contractors should secure all building sites to prevent any debris from blowing and causing injury or damage.
- Be sure to have a safety plan in place for you and your family. This includes planning for essential medications, contact information, food, water and pets.
- You must know your elevation in order to understand if your location will be impacted by storm surge. Find your elevation online at <https://viewer.nationalmap.gov/advanced-viewer/>.
- Keep a list of local emergency contact information. Find contact information at www.gulfshoresal.gov/resourcedirectory.
- **In the event a hurricane warning is issued for Gulf Shores, Hurricane Re-entry Decals will cease to be issued. Residents are encouraged to visit City Hall and obtain a Hurricane Re-entry Decal.** Decals are issued Monday-Friday from 8 a.m. to 5 p.m. Proof of residency or property ownership along with a valid driver's license is required.
